Erratum to: Mol. Cells 30, 403-408 (2010)
DOI/10.1007/s10059-010-0122-z

This paper was initially submitted to Journal 'Molecules and Cells' without approval from two coauthors. According to the decision of editorial committee, I, as a corresponding author for this paper, withdraw authorship of two coauthors who did not agree to use of XO1, XO2, and XO3 cells shown in Fig. 1B. Thus, we change data shown in Fig. 1B by removing expression of TLX in these cells. We deeply regret this circumstance and apologize to the community.
