The original version of this article, unfortunately, contained an error.

The above article originally published with an error present in the 9-valent dose listed within the abstract. Originally reading “...For the 9-valent dose, our calculated number needed to seriously harm is 140 (95% CI, **796–53**)...”, this should instead have read “...For the 9-valent dose, our calculated number needed to seriously harm is 140 (95% CI, **79–653**)...” [bold text used to highlight problem area].

The original article was corrected.

The online version of the original article can be found at <http://dx.doi.org/10.1007/s10067-017-3768-5>
