ERRATUM

Erratum to: A novel oxidative stress marker in migraine patients: dynamic thiol–disulphide homeostasis

Sadiye Gumusyayla¹ · Gonul Vural¹ · Hesna Bektas² · Salim Neselioglu³ · Orhan Deniz¹ · Ozcan Erel⁴

Published online: 31 May 2016
© Springer-Verlag Italia 2016

Erratum to: Neurol Sci DOI 10.1007/s10072-016-2592-z

The author would like to correct the following error in the publication of the original article:

In the “Discussion” section, fourteenth sentence of the fifth paragraph should read as:

“There have been two other studies on thiol measurements in migraine patient, which found total thiol levels to be decreased in migraine patients compared to with healthy volunteers, in contrast to our results. These results have been attributed to the antioxidant properties of thiols [28, 39].”

The online version of the original article can be found under doi:[10.1007/s10072-016-2592-z](https://doi.org/10.1007/s10072-016-2592-z).
