ERRATUM

Erratum to: Dissolved nitrogen release from coarse and amphipod-produced fine particulate organic matter in freshwater column

Fig. 5 $\text{NO}_2^- + \text{NO}_3^-$ release rate (mean $\pm$ SD, $n = 3$) from CPOM, L-FPOM, and M-FPOM, standardized to the dry mass of POM. Error bars (SD) are shown on the upper side of the mean (some bars are not visible because they are too small). Note that the $\text{NO}_2^- + \text{NO}_3^-$ release rates on day 14 were plotted at day 11.5, because the rates express the average in week 2
