Equations (2) and (3) should be replaced, respectively, with

$$\begin{cases} A_1 \oplus A_2 = \exp(\ln(A_1) + \ln(A_2)) \\ k \otimes A = A^k = (UDU^T)^k = UD^kU^T = U \begin{bmatrix} \lambda_1^k & 0 & 0 \\ 0 & \lambda_2^k & 0 \\ 0 & 0 & \lambda_3^k \end{bmatrix} U^T \end{cases}, \quad (2)$$

and

$$A = \exp\left(\sum_i \psi_i \times \ln(A_i)\right). \quad (3)$$

Simulation results in the paper are not affected by this error since the correct expressions were used in generating the results.

In Sect. 2.6, first paragraph, the sentence “In this semi-implicit scheme, x_{k+1} (the value of x at the next integration step) was used for extrapolation of $\frac{dx}{dt}$ and for integration of the first equation in (7) ...” should read as follows: “In this semi-implicit scheme, x_{k+1} (the value of x at the next integration step) was used for extrapolation of $\frac{dx}{dt}$ and for integration of the first equation in (8) ...”.
