Erratum to: Chromatographia DOI 10.1007/s10337-016-3029-9

The first reference was incorrect in the original version of the article. The corrected version is as shown below.

Cannabis sativa L. might just be the most famous plant species on the planet, since humans have been using it as such or some of its products since 5000 years or more for different purposes [1, 2].
