Erratum to: Annals of Biomedical Engineering
(2014) 42(8):1781–1789
DOI 0.1007/s10439-014-1012-x

This erratum is to correct for the wrong presentation of Fig. 5(c) and acknowledgments. Figure 5c was left without changing when preparing for Fig. 5 by using a template. So the image of apoptosis analysis under PEG-SiO₂ condition was not shown correctly, but the number of apoptosis ratio is correct. Figure 5 has been updated to show the right image by changing Fig. 5(c) only. The major findings and conclusions of this paper are not affected by these differences. The corrected version of Fig. 5 is presented here.

ACKNOWLEDGMENTS

The authors thank Professor Somerman and Ding Bai for providing cell line to them. This work was supported by National Natural Science Foundation of China, NSFC 81170999; Special Industrial Research supported by Development and Reform Commission of Jilin Province (2013C025-2); Foundation from Department of Health of Jilin Province, China, 2011Z091; and Specialized Research Fund for Doctoral Program of Higher Education, China, SRFDP 20110061110072.
