Correction to: Agroforest Syst

<https://doi.org/10.1007/s10457-017-0182-6>

The published on-line ms “Carbon dynamics of cocoa agroforestry systems in Central Cameroon: afforestation of savannah as a sequestration opportunity” unfortunately bears some unit errors on soil organic C concentration. In Table 2 as well as in the Discussion

section “Soil carbon concentration dynamics in agroforests setup on savannah land”, soil organic carbon (SOC) must be read in g kg^{-1} and not in mg kg^{-1} . In Fig. 4, SOC concentration must be read in “per mil” and not in “per cent”. In Appendix 2: Raw data, some units are missing: for SOC concentration (g kg^{-1}) and Clay concentration (“per cent”).
