Is case-specificity content-specificity? An analysis of data from extended-matching questions

Erratum to: Adv in Health Sci Educ DOI 10.1007/s10459-009-9169-z

Unfortunately, a mistake slipped through the proof reading process. The mistake is in the variance component numbers in Table 1 and the beginning of the results section. They should be divided by 100,000. Below you will find the right table.

The online version of the original article can be found under doi:[10.1007/s10459-009-9169-z](https://doi.org/10.1007/s10459-009-9169-z).
