Erratum to: AIDS Behav DOI 10.1007/s10461-006-9109-3

This erratum is concerned with printer errors. On page 554, the first section under “Measures” should be entitled “Demographics, health characteristics, and sexual identity”. In addition, on page 555, in the “Demographics, health characteristics, and sexual

identity” section, the correct sexual orientation categories in this measure are “gay/queer/homosexual,” “straight/heterosexual,” “bisexual,” and “none of the above/unsure”. In addition, there are formatting errors in the tables that are not the fault of the author. Readers should note these corrections and the Editorial office apologizes for the errors.
