ERRATUM

To the article “Free-Variable Semantic Tableaux for the Logic of Fuzzy Inequalities”

by A. S. Gerasimov, *Algebra and Logic*, Vol. 55, No. 2, pp. 103-127, May, 2016

On page 117, at the end of 3d row from bottom, instead of $\left(\bigvee_L G_{1,l}\right)$ it should read $\left(\bigvee_{l \in L} G_{1,l}\right)$.

On page 118, at the end of 2nd row from top, instead of $\left(\bigvee_L G_{1,l}\right)$ it should read $\left(\bigvee_{l \in L} G_{1,l}\right)$.

On page 119, in 1st row from bottom, instead of closable it should read closed;

in 2nd row from bottom, instead of closability it should read closedness.

On page 120, in 4th row from top, instead of closability it should read closedness.

On page 121, in 8th row from top, instead of closable it should read closed.

On page 122, in 3d row from top, instead of closable it should read closed.

On page 124, in 7th, 8th, 10th, and 18th rows from bottom, instead of identical it should read similar.
