Subsequent to the publication of the above paper it has been brought to our attention that the species epithet proposed for the taxon represented by strain NEAU-GH7^T is not grammatically correct as “*Streptosporangium shengliensis*” should have been proposed as *Streptosporangium shengliense*. We here propose the corrected name for the taxon represented by strain NEAU-GH7^T.

Description of *Streptosporangium shengliense* sp. nov.

Streptosporangium shengliense (sheng.li.en'se. N.L. neut. adj. *shengliense* pertaining to Shengli Park, from where the strain was isolated).

The description of the species is as given for “*Streptosporangium shengliensis*” in Zhang *et al.* (2014) Antonie van Leeuwenhoek (DOI 10.1007/s10482-013-0070-7).

The type strain is NEAU-GH7^T (=CGMCC 4.7105^T=DSM 45881^T).
