Erratum to: Adm Policy Ment Health DOI 10.1007/s10488-013-0468-6

Unfortunately, the Table 3 has three incorrect values and the total cost of services presented in the first paragraph of the Results section is incorrect in the original publication of this article. The fundamental results of the analyses are unchanged. The correct values are presented here.

1. Wraparound services with outliers reads \$7,746.05, but it should be \$72,022.50
2. Wraparound services without outliers reads \$64,987.50, but it should be \$67,207.50 (adjunct services were excluded)
3. As a result, the total cost for controls reads \$378,686.10, but it should be \$442,962.55
4. Additionally, the sentence in the first paragraph of the Results section reads, “The two groups combined ($N = 180$) utilized a total of \$653,697.45...” but should read “...a total of \$717,973.90”.

The online version of the original article can be found under doi:[10.1007/s10488-013-0468-6](https://doi.org/10.1007/s10488-013-0468-6).
