Erratum to: Exp Appl Acarol DOI 10.1007/s10493-014-9794-y

Due to an unfortunate turn of events, an error occurred in the abstract of the original publication. Two statistical techniques were mixed up and therefore the sentence “Negative binomial regression for repeated measures was used to model the associations of NDVI and season with counts of host-seeking *I. ricinus* nymphs.” is incorrect.

The correct sentence in the abstract reads

“Random-effect logistic regression was used to model the associations of NDVI and season with the probability of finding host-seeking *I. ricinus* nymphs.”

The online version of the original article can be found under doi:[10.1007/s10493-014-9794-y](https://doi.org/10.1007/s10493-014-9794-y).
