ERRATUM

Erratum to: *N*-Terminal seven-amino-acid extension simultaneously improves the pH stability, optimal temperature, thermostability and catalytic efficiency of chitosanase CsnA

Erratum to: Biotechnol Lett
DOI 10.1007/s10529-017-2436-9

In Table 1 as published, some of the data were wrong.
The corrected Table 1 is shown here.

Table 1 Kinetic parameters and specific activities of CsnA and CsnAΔN

Enzyme	K_m (g/l)	V_{max} (μM/s)	k_{cat} (s ⁻¹)	k_{cat}/K_m (l/g/s)	Specific activity (U/mg) ^a
CsnA	2.8 ± 0.32	0.27 ± 0.02	25 ± 2	8.9	3.4 × 10 ² ± 15
CsnAΔN	2.6 ± 0.3	0.25 ± 0.01	20 ± 0.58	7.7	2.6 × 10 ² ± 19

^aValues are means ± SD
