Unfortunately, the word “Economics” has been misspelled in the article as “Econoimcs”. The correct version of the article title is: “Integrating concepts and models from development economics with land use change in the tropics”.

The online version of the original article can be found under doi:[10.1007/s10668-005-0786-2](https://doi.org/10.1007/s10668-005-0786-2).
