On Page 6, the sentence: “Seventy-nine percent of 109 respondents (10 excluded due to unanswered questions) stated that they did not like flying foxes, with 39% saying that they should be killed (Fig. 4). Thirty-eight percent agreed it would be good if flying foxes went

extinct, whereas only 32% said that they should be conserved.”

Should be corrected to: “Seventy-six percent of 119 respondents stated that they did not like flying foxes, and 35% of them said that they should be killed (Fig. 4). Thirty-six percent agreed it would be good if flying foxes went extinct, whereas only 32% said that they should be conserved.”
