I would like to express our appreciation to our retiring Book Review Editor, Dr. Tanya King, who, with our Associate Book Review editor, Yancy Orr, has made a very significant contribution to the journal. At the same time, I welcome Dr. Chris Fisher, an archaeologist at Colorado State in the Department of Anthropology, as our new Book Review Editor. Chris is a National Geographic Explorer and Professor of Anthropology at Colorado State University. He has conducted fieldwork throughout Latin America, Europe, and North America. His recent work focuses on the use of remote sensing technologies to better understand the causes and consequences of urbanism and environmental change in both Mexico and Honduras. I'm sure he will appreciate any suggestions you may have for new reviews.
