Due to an unfortunate mistake, an error occurred in the conversion of the algal biovolumes to algal biomass. The correct values of phytoplankton biomass are one order of magnitude lower than those published. This

error occurs on page 53 and in Fig. 4. The text on page 53 should have read:

“...total algal biomass (3.4–128.5 mg l⁻¹). The saline lake SA also showed rather low algal biomass (3.6–17.6 mg l⁻¹)...”; “...total phytoplankton biomass varied from 4.5 to 1781.6 mg l⁻¹...”.
