Erratum

A Faithful Record of Stressful Life Events Preserved in the Dental Developmental Record of a Juvenile Gorilla¹

**Gary T. Schwartz,^{2,6} Don J. Reid,³ M. Christopher Dean,⁴
and Adrienne L. Zihlman⁵**

Published Online September 7, 2006

Due to vendor errors in the correction process, the following errors were published in the online versions of this article.

The word “Recorded” in the title of the paper as originally published online should be “Preserved” as above.

INTRODUCTION

1. The third sentence of the first paragraph is missing the word “to” before “map” as part of the infinitive phrase. The sentence should begin: “New techniques have emerged to map the growth of individual teeth and entire dentitions . . .”
2. The first sentence of the fifth paragraph is missing the main verb “appear” after the word “develop.” The sentence should begin:

“The incremental lines preserved as dental tissues develop appear in 2 forms . . .”

MATERIALS AND METHODS

Subject

There is a superfluous period after the parenthetical phrase “(3 yr 3 mo; 26.8)” at the beginning of the subsection. The subsection should begin with the following sentence, instead of the two sentence fragments as originally published online: “A healthy, captive juvenile western lowland gorilla (*Gorilla gorilla gorilla*; studbook no. 1268/650; studbook name OKLA 13/G) died suddenly in an accident (AT 3 yr 3 mo; 26.8 kg), not from a chronic or acute illness.”

Methods

The first sentence of the second paragraph has a superfluous word “them” after the word hemimaxilla and should read: “We carefully extracted and cleaned each tooth from a hemimandible and hemimaxilla (Fig. 1c).”

RESULTS

Age at Death, Crown Initiation, and Crown Formation Times

All abbreviations that appear as “CFT” should read as “CFTs” throughout the subsection.
