On page 7, in the first section of the results in the preliminary analyses section, the last sentence of the last paragraph of that section, the following error was inadvertently made:

Results of *t*-tests indicated that African American and Euro-American participants only significantly differed on CNCEQ catastrophizing [African American $M = 13.16$ ($SD = 5.5$); Euro-American $M = 11.01$ ($SD = 4.0$); $t(120) = 2.46, p < .05$].

The sentence should read:

Results of *t*-tests indicated that African-American and Caucasian participants only significantly differed on CNCEQ Catastrophizing [African-American $M = 13.80$ ($SD = 5.17$); Caucasian $M = 11.18$ ($SD = 4.01$); $t(70) = 2.41, p < .05$].
