Erratum to: J Autism Dev Disord DOI 10.1007/s10803-015-2624-1

The original version of this article unfortunately contained errors in the reference list and text citation. Two entries are missing in the reference list.

The authors inadvertently failed to cite the work of Allen et al. (2013), showing physiological effects of emotional music in adults with autism spectrum disorders, and Heaton et al. (2008), highlighting the importance of language development in musical understanding. The complete references are given below.

References
