The article published in this issue “The Effects of Culture on Firm Risk-Taking: A Cross-Country and Cross-Industry Analysis” by Roxana Mihet received The President’s Prize of the Association of Cultural Economics International. This prize is awarded to the best paper in the judgement of a Committee consisting of the President, Past President and President-Elect that is presented at the biennial conference by a PhD or other postgraduate student. The 2012 biennial conference was held in Kyoto, Japan at Dohisha University from June 21–24.
