Correction to: *Journal of Child and Family Studies*
<https://doi.org/10.1007/s10826-018-1107-3>

The original version of this article unfortunately contained two mistakes. The sentence on page 6 should read “Finally, fathers’ perceptions of greater infant negative affectivity at 3-months postpartum were associated with higher levels of gate closing at 9-months postpartum ($r = .18, p < .05$).” The words “gate opening” should read as “gate closing” and the p -value as less than .05.

The last sentence of Figure 1 caption should read as “In total, the predictors at 3-months postpartum accounted for 11% of the variance in fathers’ parenting quality, 46% of the variance in fathers’ perceptions of maternal gate closing and 29% of the variance in fathers’ perceptions of maternal gate opening at 9-months postpartum.” The phrase “and 29% of the variance in fathers’ perceptions of maternal gate closing” should be deleted.

The original article can be found online at <https://doi.org/10.1007/s10826-018-1107-3>.
