Erratum to: J Comput Neurosci
DOI 10.1007/s10827-012-0387-7

The original version of this article contains a typographical error in Eq. (14) which should read:

$$\beta_n = 0.125 \exp \left[-\frac{V_m + 65}{80} \right] \quad (14)$$

The code available at ModelDB (<http://senselab.med.yale.edu/modeldb>) uses the correct equation. As stated in the article, our Hodgkin-Huxley model uses parameter values as described in Ochab-Marcinek et al. (2009).
