Erratum to: J Clin Monit Comput (2012) 26:75–83 DOI 10.1007/s10877-012-9336-2

The authors would like to correct the error that has been found in the original publication of the article.

Paragraph one in the published article (in page 79) should read as “TL-200 systolic BP was within 5 mm Hg of A-Line values in 41.5 % of pairs, while 94.8 % were within 15 mm Hg, Table 3B” and not “TL-200 systolic BP was within 5 mm Hg of A-Line values in 41.5 % of pairs,

while 94.8 % were within 15 %, Table 3B.” Table 3B presents this data correctly.

This error is repeated in the Discussion, where the correct sentence should read as “By comparison, (in page 80, second paragraph) our TL-200 data shows 94.8 % systolic, 99.6 diastolic and 98.9 % of mean BP values were within 15 mm Hg of the A-Line value” and not “By comparison, our TL-200 data shows 94.8 % systolic, 99.6 diastolic and 98.9 % mean BP values within 15 % of A-Line value.”

The online version of the original article can be found under doi:[10.1007/s10877-012-9336-2](https://doi.org/10.1007/s10877-012-9336-2).
