Errors were made on pages 340 and 341 of “Evaluating Acquiescence to Yes-No Questions in Fear Assessment of Children With and Without Mental Retardation” (Volume 17, Number 4, December 2005, pp. 337-343, DOI: [10.1007/s10882-005-6617-4](https://doi.org/10.1007/s10882-005-6617-4)). On page 340 in the first paragraph, the mean IQ and SD should read as follows: mean IQ=64.18, *SD*=9.06. On page 341, the last sentence of the first paragraph should read as follows: Each participant was asked, “Do (does) _____ make you (fear-word-preference)?”

The online version of the original article can be found at doi: <http://dx.doi.org/10.1007/s10882-005-6617-4>.
