Erratum to: J Occup Rehabil DOI 10.1007/s10926-016-9661-2

In the original version of this article, the words CMDs and MSDs are interchanged in the abstract section, “Finally, several dimensions of ROSES also predict the participant’s RTW within 6 months for MSDs (e.g., job demands), and CMDs (e.g., difficult relation with the immediate supervisor), even when adjusted by several variables (e.g., age,

severity of symptoms)”. The corrected sentence is given below:

Finally, several dimensions of ROSES also predict the participant’s RTW within 6 months for CMDs (e.g., job demands), and MSDs (e.g., difficult relation with the immediate supervisor), even when adjusted by several variables (e.g., age, severity of symptoms).

The online version of the original article can be found under doi:[10.1007/s10926-016-9661-2](https://doi.org/10.1007/s10926-016-9661-2).
