There are two errors in the original publication. First, in Discussion section, the unit of annual ^{137}Cs transport load is incorrect in the first sentence of the last paragraph. This should be MBq, not kBq. Second, the unit of ^{137}Cs inventory in Table A4 in the Electronic Supplementary Material is incorrect. This should be Bq/m², not kBq/m². The correct version of the Electronic Supplementary Material file is provided in this erratum.
