ERRATUM

To the article “Carcass Theory of Fibrous Media with Uncurved and Locally Curved Fibers at Large Deformations” by V. M. Akhundov, Vol. 51, No. 6, 2015.

On page 685, lines 9 and 10 from below. The sentence should read: However, the coordinate lines in the current material configuration of the medium determined from the field of material displacements $\hat{\mathbf{u}}(\hat{\theta}^i, t)$ can undergo local bendings and breakdowns at their intersections with matrix-fiber interfaces.

On page 690, line 9 from below: (2.5) should be instead of (3.5).

On page 693, line 15 from above: (3.1) should be instead of (4.1).
