Erratum to: Multimed Tools Appl DOI 10.1007/s11042-017-4472-9

In the original publication, Fig. 3 contains wrong label. The authors would like to present the correct figure below.

$p1 \star (i-1, j+1)$	$p2 \star (i, j+1)$	$p3 \star (i+1, j+1)$
$p4 \star (i-1, j)$	$p0 \star (i, j)$	$p5 \star (i+1, j)$
$p6 \star (i-1, j-1)$	$p7 \star (i, j-1)$	$p8 \star (i+1, j-1)$

The online version of the original article can be found at <http://dx.doi.org/10.1007/s11042-017-4472-9>

In the description of equation 19 “while here K is a constant” should be removed. The correct description is also presented below.

$$o = f(s) = C \cdot \varphi\left(\sum_{j=1}^N w_j s_j - \theta\right). \quad (19)$$

In the Eq. 19, C is a constant and φ represents a non-linear function whose parameter values are $+1$ and -1 (or 0). θ represents a threshold and w_j shows the weight.
