The Editor-in-Chief has retracted this article [1], which was published as part of special issue “Multi-source Weak Data Management using Big Data”, because its content has been duplicated from an unpublished manuscript authored by N Edna Elizabeth, V Hansini, R Hemapriya and S Kavitha without permission. In addition, there is evidence suggesting authorship manipulation and an attempt to subvert the peer review process.

Author Zepeng Wang stated on behalf of all co-authors that they agree to this retraction.
