Erratum to: Neuropsychol Rev (2010) 20:52-85 DOI 10.1007/s11065-009-9125-y

Information in Table 6 of the Appendix (page 78) of the original publication by Cattelan et al. (2010) indicates that participants in the rehabilitation study of Walker et al. (2005) were on “Neuroleptic therapy” as part of treatment and that their results were “equivocal” in showing an unclear “neuroleptic therapy effect.” These statements are incorrect because Walker et al. did not use neuroleptic medication or

other medication in their study, and no participants while in their program were taking neuroleptic medication.
