It is with regret that the Authors have requested to retract this article. Firstly, Tongde Hospital had not approved the data to be published and secondly, the authors are concerned that their research has not been studied fully enough to warrant publication. All the authors have agreed to this retraction and apologize to the readers of IJCP.

The online version of the original article can be found under doi:[10.1007/s11096-013-9855-z](https://doi.org/10.1007/s11096-013-9855-z).
