The original version of this article unfortunately has been published with certain errors that are corrected below.

In Sect. 4, the initial line of the 2nd paragraph should read as

Suppose we think the distributive law $p \cdot (q \vee r) :: (p \cdot q) \vee (p \cdot r)$ holds true and is a priori, but we want to be fallibilist about a priori justification.

In the Acknowledgements section the name should read ‘Otávio Bueno’ (and not ‘Octávio Bueno’).
