Figure 3 depicts the relationship between the volume fraction of air and water filled pore space but is incorrect for the relationship between volume fraction of water and water filled pore space.

The correct figure appears below:

Fig. 3 (corrected) Variations in the volume fractions of air and water with water filled pore space (WFPS) for soils at different bulk densities. For a given WFPS (left axis for volume fraction of air; right axis for volume fraction of water) the volume fractions of air or water vary depending on the bulk density of the soil.

Responsible Editor: Elizabeth (Liz) A. Stockdale.
