Acknowledgments The work was funded by the Foresight programme of the UK Government Office for Science, as a part of the project on “Migration and Global Environmental Change: Future Challenges and Opportunities”. The authors are very grateful to all the experts for participating in the survey, as well as to the Editor and three anonymous reviewers of *Population and Environment* for helping us improve the paper. The remaining errors are exclusively ours. The findings, interpretations, and conclusions expressed in this paper are entirely those of the authors and should not be attributed in any manner to the Government Office for Science, or any of the institutions, with which the authors are affiliated.
