The bottom graph of Fig. 3 in the original publication was mistakenly repeated as Fig. 4. The correct Fig. 4 is shown below.

Fig. 4 Bleaching kinetics of membrane bound RCs after turning on CW illumination for a 2-second time interval. The transmittance at a wavelength of 865 nm, T_{865} , versus time is shown. The smooth line shows the results of fitting using Method 2

The online version of the original article can be found under doi:10.1007/s11120-009-9461-z.
