Erratum to: Photosynth Res DOI 10.1007/s11120-011-9638-0

On the ninth page of the original publication there is a mistake with the units used to specify the daily discharge of

treatment plants, both in the text (right column, third line from top) and in Table 2 (Mean daily discharge column). The unit of volume should be ML (not ml). This is the difference between Megalitres (ML) and milliliters (ml).

The online version of the original article can be found under doi:
[10.1007/s11120-011-9638-0](https://doi.org/10.1007/s11120-011-9638-0).
