The organism used in this article (Chen T, Ye R, Fan X, Li X, Lin Y. Identification of C₄ photosynthesis metabolism and regulatory associated genes in *Eleocharis vivipara* by SSH. Photosynth Res, 2011, 108: 157–170) should in fact

be *Eleocharis baldwinii* and not, as originally indicated, *Eleocharis vivipara*. There are few differences between *Eleocharis baldwinii* and *Eleocharis vivipara*, in so far as their photosynthetic properties are concerned, and thus all the results and conclusions presented in this article remain unchanged.
