DOI 10.1007/s11127-006-0864-5

Equations (3), (4), and (5) are incorrect in the published article. The correct equations are as follows:

$$\begin{aligned} \Pr(\text{VOTE} = 1) = \Phi[a + G(b_1\Delta U + b_2\Delta I + c_1\text{MICRO}) \\ + c_2\text{UNEMPLOYED} + d], \end{aligned} \quad (3)$$

$$\begin{aligned} \Pr(\text{VOTE} = 1) = \Phi[a + G(b_1\Delta U + b_2\Delta I + b_3\Delta\text{GDP} + c_1\text{MICRO}) \\ + c_2\text{UNEMPLOYED} + d], \end{aligned} \quad (4)$$

$$\begin{aligned} \Pr(\text{VOTE} = 1) = \Phi[a + G(b_1\text{MACRO} + c_1\text{MICRO}) \\ + c_2\text{UNEMPLOYED} + d]. \end{aligned} \quad (5)$$
