1. In the fourth paragraph of Section 1,

Though there have been several reports, there was only one refereed publication on the general characteristics of the SXT PSF by Tsuneta *et al.* (1991).

should be replaced by

Though there have been several reports, Tsuneta *et al.* (1991) is the first refereed publication on the general characteristics of the SXT PSF.

2. There is an error in one of the equations:

$$\chi^2 = \sum_x \sum_y \frac{[I_{\text{obs}}(x, y) - I_{\text{mod}}(x, y)]^2}{I_{\text{obs}}(x, y)} + \delta_c \quad (8)$$
