Figs. 10–13 *Cetorhinicola acanthocapax* Beveridge & Campbell, 1988, pre-mature, mature and pre-gravid segments. 10. Premature segment showing the arrangement of testes in two

columns. 11. Mature segment prior to the development of the ovary. 12. Mature segment with ovary fully developed and uterus starting to enlarge. 13. Pre-gravid segment. Scale-bars: 100 μ m

Figs. 14–17 *Cetorhinicola acanthocapax* Beveridge & Campbell, 1988, transverse sections through mature segments and dorsoventral illustration of the terminal genital ducts. 14. Transverse section through the anterior region of a segment, including the lappets of the preceding segment. 15. Transverse section of a mature segment through the genital atrium showing the cirrus-sac. 16. Transverse section of a mature

segment at the level of the ovary and Mehlis' gland. 17. Dorso-ventral view of the genital ducts. **Abbreviations:** c, cirrus; cs, cirrus-sac; ga, genital atrium; is, internal seminal vesicle; l, lappet; lm, longitudinal muscle; mg, Mehlis' gland; o, ovary; sp, sphincter; t, testis; u, uterus; v, vagina; vd, vas deferens; vi, vitelline follicle; vo, ventral osmoregulatory canal. **Scale-bars:** 100 μ m
