Erratum to: Experimental Mechanics DOI 10.1007/s11340-009-9312-z

The author wishes to make the following correction at the end of the first paragraph under The First Gateway: The Cervix section:

The length of the human cervical canal is 3 cm. At a swimming speed of 35 $\mu\text{m}/\text{sec}$, human sperm could pass through the cervix in about 15 min.

The online version of the original article can be found at <http://dx.doi.org/10.1007/s11340-009-9312-z>.
