Erratum to: Int J Life Cycle Assess
DOI 10.1007/s11367-016-1160-3

This is a corrigendum and clarification on behalf of the authors.

Figure 4 (including the figure legend) in the original version of this article has been corrected as follows:

In addition, the authors would like to emphasize that the refinery case study reported in this paper came from the Thai LCI database development of petroleum and petrochemical industry project phase 1 (2006–2007). The current available LCI data on the Thai LCI database website were from the project phase 2 (2008–2011). Presently, the project phase 3 is on-going (2015–present), and the updated data will be available in the near future.
