Erratum

A faulty reference was inadvertently reported in “Student Models of Instructional Design” by S. Magliaro & N. Shambaugh published in *Educational Technology Research and Development*, Volume 54 Number 1, pp. 83–106. Specifically, the reference to the often cited article by Andrews and Goodson (1980) about instructional design models incorrectly cited the authors as “Anderson & Goodson.” The correct reference is listed below. *ETR&D* regrets the error.

Please note that AECT now provides Internet access to all past issues of the *Journal of Instructional Development*.
