Citation: H. X. Meng, H. X. Cao, W. H. Wang, L. Chen, and Y. J. Fan, Erratum to: Continuity of the robustness of contextuality of empirical models [Sci. China-Phys. Mech. Astron. **59**, 100311 (2016)], Sci. China-Phys. Mech. Astron. **60**, 010351 (2017), doi: 10.1007/s11433-016-0301-4

In the original publication [1] of this paper, a result named Theorem 2.2 in our paper and proved in ref. [2] was used incorrectly, which works well only for no-signalling empirical models. So, the notation “*EM*” in Theorem 2.2, Theorem 2.4 and Corollary 2.1 as well as their proofs should be replaced with “*NSEM*”, which is the set of all no-signalling empirical models. Also, the words “empirical models” in abstract, sect. 3 and conclusions should be changed to “no-signalling empirical models”. Furthermore, the ref. [9] should be “H. X. Meng, H. X. Cao, and W. H. Wang, Sci. China-Phys. Mech. Astron. **59**, 640303 (2016)” [3].
