Starting with volume 26 (2016) *Morphology* welcomes a new editor, Ana Luís (University of Coimbra, Portugal). Ana replaces Geert Booij, who has resigned as editor after 28 years (!) in this capacity, first as editor of *Yearbook of Morphology*, and, since 2006, as editor of *Morphology*, after the *Yearbook* became a regular journal. The field of morphology has profited immensely from his work, and many of us have learned a great deal through his meticulous editorship and careful guidance. Thank you so much, Geert!
