Publisher's Erratum

On the matricial version of Fermat–Euler congruences

V.I. Arnold

Erratum published online: 17 September 2006

Japan. J. Math. (2006) DOI 10.1007/s11537-006-0501-6

Unfortunately, Theorem T_A on p.5 was printed incorrectly, due to a publisher's error. The correct statement is the following:

Theorem T_A . *The multinomial coefficients satisfy the following congruence:*

$$C[\{pb_k\}] \equiv C[\{b_k\}] \pmod{p^r},$$

whenever the natural numbers b_k have the sum

$$\sum b_k = Ap^p.$$
