Erratum to: TEST DOI 10.1007/s11749-014-0403-5

We would like to point out the following correction to the original article: on the third page, three lines below the definition of $\hat{\Lambda}_N^F(y)$, $\hat{\bar{F}}_N(y)$ should be defined as

$$\hat{\bar{F}}_N(y) = 1 - \exp\left(-\hat{\Lambda}_N^F(y)\right).$$

The online version of the original article can be found under doi:[10.1007/s11749-014-0403-5](https://doi.org/10.1007/s11749-014-0403-5).
